Office of Access and Functional Needs (OAFN)

- Coordinated with the FEMA Region IX Pacific ADA Center to share information outlining accessibility requirements at medical drive-thru test sites. Also included was a companion Checklist for organizations creating these temporary facilities to help them quickly determine what they need to do to comply with the ADA.
- Partnered with leadership from the California State Independent Living Council (SILC) to develop messaging for ILCs regarding the resource request process to secure items such as masks, gloves, and other PPE for consumers with disabilities.
- Facilitated a partnership between the Cal OES Crisis Communications team and the Colorado Office of Emergency Preparedness and Response to share best practices regarding California's accessible/effective/inclusive communication practices, especially as it relates to virtual, at distance formats.

Office of International Affairs

- Working with Non-government Organizations to identify resources for the vulnerable populations, including immigrant farm workers, and undocumented population.

Advanced Planning Unit (APU)

- Continuing daily regression analysis of COVID-19 data analysis and projection (tested, positives, hospitalized, fatalities, and recovered).
 - Clusters identified in San Mateo, Los Angeles, Orange, Alameda, San Francisco, and San Diego counties.
- No threat to insurance company solvency seen at this time. Insurance companies have been requested by Department of Insurance to provide a 60+ day grace period on insurance premium payments.

U.S. Navy Ship (USNS) Mercy Hospital

- Patients transferred to the USNS Mercy must fulfill the criteria of the USNS Mercy Patient Screening Tool for Shipboard Admission.
- All Patient transfers to the USNS Mercy will be coordinated through the Los Angeles County Medical Alert Center (MAC).
- The Mercy is slowly moving towards accepting patients from other counties within mutual aid Region 1.
- The team continues to coordinate with federal, state and local partners to develop options for receiving, tracking and securing patient's belongings without jeopardizing ship security.
